

Test & Evaluation (T&E) Frameworks

By: *admin*

CDAO has developed a set of Test & Evaluation (T&E) Frameworks aimed at building trust in AI-enabled systems within the DoW.

CDAO has developed a series of products that address critical testing & evaluation (T&E) needs, including new frameworks for AI-enabled systems to build trust in their deployment. The overall goal of these frameworks is to ensure AI deployments in the DoD are safe, trustworthy, reliable, and ethically aligned.

AI Model T&E
